5. Click "Authenticator app" to use an authenticator app like Microsoft Authenticator on your phone

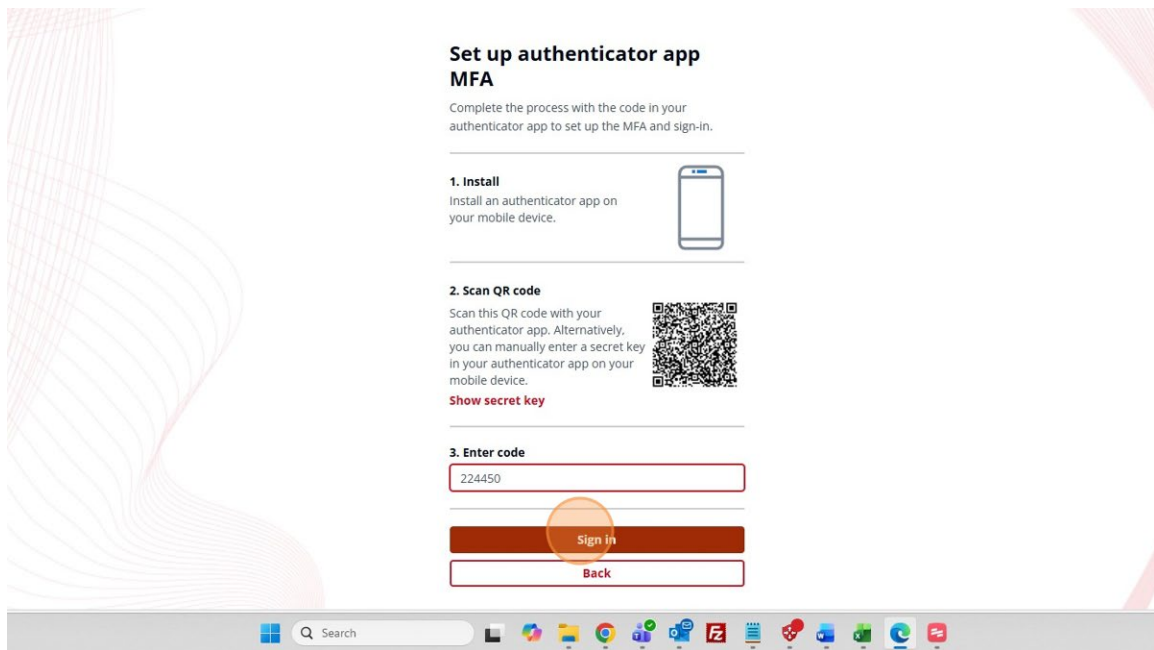

6. Click "Continue"

7. Install or open your phone's authenticator app, then scan QR code displayed on your screen. This will add a new entry [sso.cloud.ibwave.com](https://sso.cloud.ibwave.com) in the app. Enter the code generated by the app in the field below:

8. Click "Sign in"

This authentication method can also be used on several other iBwave applications such as the iBwave online store, iBwave Express, the iBwave online component DB and the iBwave License Manager.
